Subject: FW: Map with soil sample locations?

Erica,

Can we get a listing of all of the GPS coordinates for all of the samples provided in the Solvay study?

We're trying to map the results as they are coming out and if we know the locations it helps us to think about different hypotheses relating to their origin and identity.

If you have chance to talk please give me a call sometime when you are free.

Thank you very much,

Andy

Subject: Map with soil sample locations?

Hey guys,

When I looked at the Research Plan, it was not always clear to me which sample number was associated with each sample location. Would any of you have easy access to a map of the soil-sample locations that might help me clear up which location is which number?

Ex. 6 Personal Privacy (PP) but hope to run samples for some of the ethers and generate one or more maps of distribution today. If I can get this done today, I plan to send them up to you today.

Thanks,
John
